## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Trade name: Blue Light Hazer Fluid  
Registration number: Not applicable  
Relevant identified uses of the  
Mixture and uses advised against: Not applicable  
Application of the mixture: Fog and smoke simulation

Details of the supplier of the safety data sheet

Manufacturer / Supplier: M.S.V. Musik-Sound-Vertrieb GmbH  
Wirtschaftsstrasse 14  
A-2201 Großebbersdorf  
Tel.: 0043 2246 28229  
Fax: 0043 2246 28214  
Homepage: [www.m-s-v.eu](http://www.m-s-v.eu)  
E-Mail: [office@m-s-v.eu](mailto:office@m-s-v.eu)  
Informing department: Legal Compliance / Only during office hours: 9.00 - 18.00  
Emergency telephone number: ++49-(0)2641-2079408 (Mo. – Fr., 9.00 – 18.00)  
Ing. Christian Kraker, [christian.kraker@m-s-v.eu](mailto:christian.kraker@m-s-v.eu)  
Emergency Call: Poison Control Center Mainz - 24 hour  
Emergency service - Phone: +49-(0)6131-19240

## SECTION 2: Hazards identification

### Classification of the substance or mixture

Classification of the mixture Classification according to Regulation (EC) No 1272/2008:  
The mixture is not classified according to the CLP regulation.  
Classification according to Directive 67/548/EEC or 1999/45/EC:  
Void  
Information concerning particular Hazards for human and environment:  
Void

### Label elements

Labelling according to Regulation (EC) No 1272/2008  
Void  
Hazard pictograms  
Void  
Signal word  
Void  
Hazard Statements  
Void  
Other hazards  
---  
Results of PBT and vPvB assessment  
PBT: Not applicable  
vPvB: Not applicable

## SECTION 3: Composition/information on ingredients

Chemical characterization: mixture of higher polyalcohols, AQUA BIDEEST  
CAS No: ---  
EC-number: ---

#### SECTION 4: First aid measures

##### Description of first aid measures

General information: No special measures required.  
After inhalation: Consult doctor in case of symptoms.  
After skin contact: The product is not skin irritating.  
After eye contact: Rinse opened eye for several minutes under running water.  
After swallowing: In case of persistent symptoms consult doctor.

##### Information for doctor

Most important symptoms and effects, both acute and delayed  
No further relevant information available.  
Indication of any immediate medical attention and special treatment needed  
No further relevant information available.

#### SECTION 5: Firefighting measures

##### Extinguishing media

Suitable extinguishing agents:  
Use firefighting measures that suit the environment  
For safety reasons unsuitable extinguishing agents:  
None.  
Special hazards arising from the substance or mixture:  
Carbon monoxide (CO) and Carbon dioxide (CO<sub>2</sub>)

##### Advice for firefighters

Protective equipment:  
Do not inhale explosion gases or combustion gases.

#### SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:  
Not required.  
Environmental precautions:  
Do not allow product to reach sewage system or water bodies.  
Methods and material for containment and cleaning up:  
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders)  
Reference to other sections  
See Section 8 for information on personal protection equipment

#### SECTION 7: Handling and storage

##### Handling

Precautions for safe handling:  
No special measures required.  
Information about protection against explosions and fires:  
No special measures required.

##### Conditions for Safe storage, including any incompatibilities

##### Storage

Requirements to be met by storerooms and containers  
Observe all local and national regulations for storage of water polluting products.  
Information about storage in one common storage facility:  
Not required.  
Further information about storage conditions:  
None.

## SECTION 8: Exposure controls/personal protection

Additional information about design of technical systems:

No further data; see item 7.

### Control parameters

Components with critical values that require monitoring at the workplace:

Not required

Additional information:

The lists that were valid during the compilation were used as basis.

### Exposure controls

Personal protective equipment / General protective and hygienic measures

Breathing equipment: ----  
Protection of hands: ----  
Eye protection: ----  
Protection of body: ----

## SECTION 9: Physical and chemical properties

### Information on basic physical and chemical properties

#### General information

##### Appearance:

Form: Liquid  
Colour: Clear, colourless  
Smell: Odourless  
pH-value: 6-8

##### Change in condition:

Boiling point: > 100° C  
Flash point: Not available.  
Ignition temperature: Not available.  
Danger of explosion: Product is not explosive  
Critical values for explosion: Lower: -  
Upper: -

Density (20° C): : 1,04 - 1,10 g / cm<sup>3</sup>  
Solubility in water ( 20° C): fully miscible  
Viscosity: low viscosity  
Other information: No further information available.

## SECTION 10: Stability and reactivity

### Reactivity

#### Chemical stability

Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

Possibility of hazardous reactions:

No dangerous reactions known.

Conditions to avoid:

No further information available

Incompatible materials:

Strong oxidizing agents and alkaline materials

Safety data sheet according to 1907 / 2006 / EG  
Trade name: Blue Light Nebelfluide – alle Sorten  
Printing date: 18.02.2014  
Revision: 18.02.2014

## SECTION 11: Toxicological information

### Information on toxicological effects

Acute toxicity: The product has not been tested on animals.

Primary irritant effect:

On the skin: No irritand effect.

On the eye: No irritand effect.

Sensitization: No sensitizing effect known.

Additional toxicological information: ----

## SECTION 12: Ecological information

### Toxicity

Aquatic toxicity: No further relevant information available.

Persistence and degradability: The product is not classified as harmful to the environment.

In accordance with OECD 301E / EEC 84/449 C3 biodegradable.

### Behaviour in environmental systems

Bioaccumulative potential: No

Mobility in soil: No further relevant information available.

### Additional ecological information

General notes: Water hazard class 1: slightly hazardous for water

Results of PBT and vPvB assessment:

PBT: Not applicable

vPvB: Not applicable

Other adverse effects: No further information available.

## SECTION 13: Disposal considerations

### Waste treatment methods

Recommendation: Disposal must be made according to official regulations.

European waste catalogue: Waste disposal key numbers from EWC have to be assigned depending on origin  
And processing.

### Uncleaned packagings

Recommendations: Disposal must be made according to official regulations.

Recommendet cleaning agent: Water, if necessary with cleaning agent.

## SECTION 14: Transport information

UN-Number

ADR, ADN, IMDG, IATA      Void

UN proper shipping name

ADR, ADN, IMDG, IATA      Void

Transport hazard classes

ADR, ADN, IMDG, IATA

Class      Void

Packing group

ADR, IMDG, IATA      Void

Special precautions for user      Not applicable

Trade name: Blue Light Nebelfluide – alle Sorten

Printing date: 18.02.2014

Revision: 18.02.2014

Transport in bulk according to

Annex II of MARPOL73/78 and

the IBC code

Not applicable

Transport/Additional information: Not dangerous according to the above specifications

UN "Model Regulation": ---

**SECTION 15: Regulatory information**

Safety, health and environmental regulations/legislation specific for the substances or mixture

Labelling according to Regulation (EC) No 1272/2008

Void

Hazard pictograms: Void

Signal word: Void

Hazard statements: Void

National regulations

Decree to be applied in case of technical fault:

----

Water hazard class: Water hazard class 1 (slightly hazardous for water)

**SECTION 16. Other information**

Department issuing MSDS: Management

Contact person: Mr. Ing. Christian Kraker

Exposure scenario: The product has to be deployed appropriately in its as-delivered condition. The event site regulations as well as the corresponding legislation must be adhered to. Considering the range of vision and the desired effect, the smoke fluid can be dispensed into the air in measurements between 25 and a maximum of 80 mg/m<sup>3</sup>. It is particularly important to measure out the smoke fluid so as to ensure that all exits and emergency exits are still visible. This also goes for the illumination of escape routes, their markings, stairs, shafts, edges, etc. A range of vision of 25 m (maximum distance from the nearest exit according to event site regulations) must be maintained. Furthermore, it is necessary to measure out the thickness of the smoke in the air so that the well-being of the people in the room can be guaranteed. In order to avoid anxiety, the room where the smoke is being used should never be sealed. According to event site regulations, the operation and maintenance of technical equipment should only be dealt with by experienced and reliable adults. Every room where there is smoke must be supervised by trained personnel. Never drink or inhale the liquid and never apply it to your body! Keep out of the reach of children and store it in a place they cannot reach. If the product comes into contact with your skin or eyes, rinse with plenty of water.

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
